Double Counting Avoidance Assurance for Water Credits

Ver 1.0
Date 09/2025

UWR Double Counting Avoidance Assurance Statement

Date: 20/07/2026

Subject: Assurance to Avoid Double Counting of Water Benefits

We, the undersigned, on behalf of the entities detailed below, hereby provide the following assurances regarding the project referenced herein.

1. Project Proponent:

- **Name:** NSL Sugars (Tungabhadra) Limited
- **Represented By:** Mr. Nagaraju Nidadavolu
- **Title:** DGM-ESG Lead

2. Project Developer/Authorized Agent (if applicable):

- **Name:** NA
- **Represented By:** NA
- **Title:** NA

Project Title: Water Credit Project by NSL Sugars (Tungabhadra) Limited, Karnataka, India

UWR Project ID: 584

Registry/Program: UWR

We hereby confirm and declare that the above-identified project is being submitted for registration and issuance of RoUs under the aforementioned program.

Furthermore, we explicitly state and assure that:

- Single Vintage Issuance:** This project is not, and will not be, requesting issuance of water credits (RoUs) more than once for the same vintage years under this or any other verified water credit or certification program (voluntary or compliance).
- No Other Program Registration:** This project is not currently registered under any other international or domestic water resource program, incentive scheme, or certification standard that issues tradable verified or voluntary water credits for the same vintage years currently being assessed under UWR.
- Host Country Commitments:** The quantified water credits (including, but not limited to, water replenishment, water quality improvement, and water efficiency savings) generated under UWR by this project **will not be used by the host country** (India) to demonstrate achievement of, or track progress towards, its:
 - i) Mandatory domestic water resource management targets or quotas, now or anytime in the future,
 - ii) Obligations under any international transboundary water agreements, now or anytime in the future,
 - iii) Any other national policy goals that are intended to be fulfilled through domestic action, and are not contingent on market-based mechanisms now or anytime in the future.
- The host country will not double-claim these same water credits for its policy purposes.

This assurance is provided to prevent any instance of double counting or double claiming of the water credits or environmental attributes to this project under UWR.

SIGNED for and on behalf of NSL Sugars (Tungabhadra) Limited
